

Autodesk Vault Data Management for Inventor Users

Course Description

The Vault Data Management for Inventor Users course is intended for Autodesk Inventor users who need to access their design files from Autodesk Vault. The course highlights the functionality of the new search tool for managing files and designs.

Topics include:

- Introduction to Autodesk Vault Features
- Vault Workflow
- Using Autodesk Vault Explorer
- Organizing Inventor, Project and Library Files
- Searching the Vault
- Working with Non-CAD Files
- Working with Inventor Files
- Managing Prompts and Dialogs
- Customizing the User Interface

Hands-on exercises representing real-world, industry-specific design scenarios are included.

Course Duration: 1 days

Required Credits: 4 credits

Prerequisites

Working knowledge of Autodesk Inventor.

All training courses are available on-site by request, and regularly scheduled at our office locations.
